TIMELESS®

Enjoy over 14,000 showers
of transparency...*

10 YEARS
WARRANTY

*See inside the brochure and on our website www.saint-gobain-glass.com (TIMELESS® web page) for more information about our 10-year no-corrosion warranty and our 14,000 showers commitment.

SAINT-GOBAIN GLASS

DISCOVER TIMELESS®

BY SAINT-GOBAIN GLASS

Designed for those who value enduring transparency and aesthetic appeal, TIMELESS® stands at the forefront of glass innovation. Welcome to a world where your shower cabin glass remains as transparent as the day it was installed.

A PATENTED TECHNOLOGY with 4 main benefits

- HIGH TRANSPARENCY AND NATURAL COLOUR
- PREVENTS WHITE VEIL DUE TO AGEING
- NO ADDED PFAS²
- 10-YEAR NO-CORROSION WARRANTY

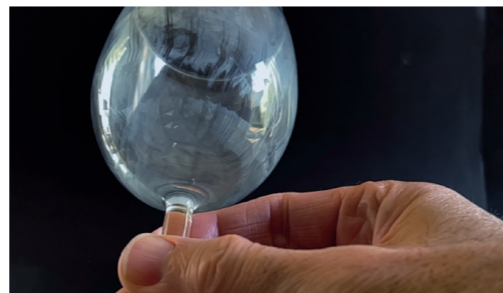

EXCEPTIONALLY HIGH TRANSPARENCY AND NATURAL COLOUR

Experience unparalleled transparency with TIMELESS®, featuring a virtually invisible coating on its clear glass surface. Even after over 14,000 showers¹, it retains its pristine appearance.

PREVENTS THE WHITE VEIL DUE TO AGEING

Thanks to Saint-Gobain Glass' transparent protective mineral coating – the first of its kind on the market – TIMELESS® doesn't succumb to the white veil that comes with glass corrosion over time, ensuring its transparency day after day.

Unlike glasses in a dishwasher, our TIMELESS® glass resists corrosion and stays transparent.

NO ADDED PFAS²

Being a fully mineral coating, TIMELESS® does not contain intentionally added organic chemicals like fluorinated compounds (e.g. PFAS). In addition, TIMELESS® is recyclable, further demonstrating Saint-Gobain Glass' strong commitment to sustainability.

Range Specifications

AVAILABLE ON CLEAR GLASS³

in 6, 8 and 10 mm thicknesses.⁴

STANDARD DIMENSIONS

3210 x 6000 mm.⁴

CONFORMITY TO

EN 14428 shower enclosures
EN 1096-4 (class A) glass in building – coated glass.

OPTICAL PROPERTIES

The TIMELESS® coating is **neutral** with a reflection similar to uncoated glass (8 mm: Light Transmission = 0,88 and Light Reflectance = 0,10 after tempering)⁵ maintaining an appearance of clear natural glass.

10-YEAR NO-CORROSION WARRANTY ASSURANCE

TIMELESS® is easy to maintain like normal clear glass and does not require additional chemical treatments. Additionally, we offer a 10-year no-corrosion warranty, subject to the regular cleaning guideline.

1. This 14,000 showers estimation is based on rigorous testing (standard EN 1096-4 and EN 14428). On the strength of these requirements, Saint-Gobain Glass guarantees that TIMELESS® withstands the equivalent of 10 years of regular use by a family of 4 individuals under regular cleaning conditions.

For more details on TIMELESS® warranty conditions, please refer to our website at www.saint-gobain-glass.com

2. Being a fully mineral coating, TIMELESS® does not contain intentionally added organic chemicals like fluorinated compounds (e.g. PFAS).

3. Available on demand in extra clear DIAMANT® substrate.

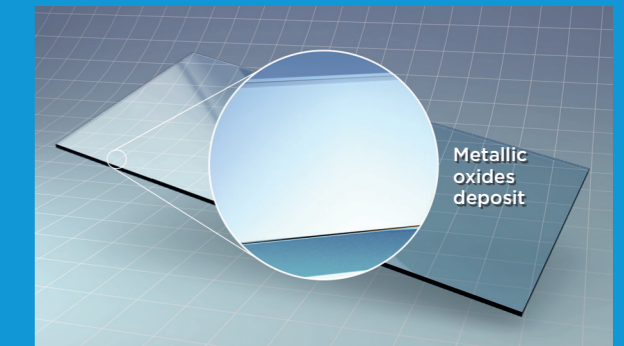

4. For other dimensions or thicknesses, get in touch.

5. According to EN 410 standard measurements.

6. For more information, please refer to the "TIMELESS® usage instructions".

Manufacturing Principle

TIMELESS® is manufactured through the Magnetron deposition process, applying a durable patented metal oxide layer to the glass. This technique ensures the coating's long-term effectiveness without degradation.

PROCESSING

TIMELESS® can be cut, finished, tempered and screen-printed on either side. For more information, please consult the TIMELESS® processing guidelines.

INSTALLATION⁶

The glass must be installed with the TIMELESS® coating facing the interior of the shower enclosure. TIMELESS® is installed just like any typical shower glass of similar thickness. Ensure all installations adhere to the latest safety standards and regulations.

MAINTENANCE

TIMELESS® requires regular cleaning. Standard shower glass cleaning products can be used, but not those containing abrasive substances.

EMBRACE LASTING ELEGANCE WITH TIMELESS®

TIMELESS® by Saint-Gobain Glass isn't just an upgrade to your space; it's a commitment to beauty and transparency. With its unmatched resilience, it's the obvious choice for those who value enduring longevity and ageless aesthetics.

Transparency that lasts and lasts and...
