ENVIRONMENTAL PRODUCT DECLARATIONS FOR EGYPT MANUFACTURING SITE

At Saint-Gobain Glass, we are committed to transparency and sustainability. This document brings together our Environmental Product Declarations (EPDs) for products manufactured in Europe, making it easier for our partners and clients to access transparent, third-party verified data on environmental performance.

Whether you're working toward certifications, conducting project assessments, or simply making informed choices, this regional overview is designed to support your goals with clarity and confidence.
